Prospectus for The Tandem Flight Co.

The Tandem Flight Co. offers instructional tandem paragliding flights for people that are interested in flying on a paraglider.

We offer an introduction to the world of paragliding. For most of our students their flights with us will be their first paragliding experience and our aim is to make it enjoyable, informative and safe.

Experience

We have a very experienced team both on the ground and in the air. Our pilots are all suitably licensed and have been flying for many, many years. We are proud of our impeccable safety record and are serious about keeping it this way.

We are also aware that there is much more to the whole paragliding experience than just the flight and aim to create a total experience for our students that is world class.

Location

We are based in Cape Town and do most of our training flights from Signal Hill and Lion's Head but do travel to other venues to fly.

Equipment

All our flying equipment is maintained and checked regularly to ensure they meet the highest safety requirements. Our gliders are typically replaced annually.

Licensing

All our pilots are licensed by the South African Hang Gliding and Paragliding Association (SAHPA) to be able to offer tandem paragliding instruction.

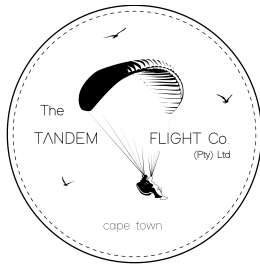

Licenses are renewed annually. Pilots also need to have Class 4 Aviation medicals and up to date First Aid certificates in addition to the paragliding requirements.

Safety

The safety of our pilots, students and staff is at the core of everything that we do.

We have processes in place to assess the weather conditions and suitability of the conditions to flying. We monitor the situation minute by minute to ensure we always fly in safe conditions.

Our equipment is up to the highest standards and all staff are well briefed to be able to handle any eventuality.
